CHAPTER PAYMENTS

Explanation of Chapter Payments

PTPI Chapter Payments are structured based on zones. This is designed to take into account differences in global regions. The zones are based on countries' Gross National Income according to the United Nations. Membership for all chapter members is covered under this payment.

We encourage chapters to do what works best for them to provide for the payment – collect dues, fundraise, or do a combination of the two. We also encourage chapters to support one another by making a contribution to help cover payments for chapters in Zone 4.

Membership updates will continue to be collected annually by March 1 for Community Chapters and by November 1 for Student Chapters. The chapter payments will be implemented beginning November 1, 2014.
