***Introducing Language Teaching in your Chapter and Community***

People to People International Language Ambassador Program offers chapters the possibility to receiving a conversational language teacher in the chapter for a period between two and four weeks. These teachers could be either native speakers or non native speakers with a good language command, and will be teaching part-time (up to 20 hours per week) to chapter members. Since the classes will mostly consist of conversational English, the students are required to have a basic command of the language.

We encourage all chapters to take part in this program, since it would be a good opportunity for their members to improve their skills, as well as to establish direct contact to people from different countries.

As a participating chapter you need to offer the following:

- Offer accommodation for participating teacher (own apartment or similar)
- Supply "pocket money" for eating expenses and/or meals
- Introduce teacher to the chapter network and/or friends
- Supply the teacher with information about the chapter, the city and its area, and the target group he/she will be teaching
- Provide PTPI and the teacher with a copy of rules (work-permit) for non-paid teaching in the country
- Members taking part in the classes should have basic English skills

There is no deadline for chapter applications.
